

RENDANI MASEGWALA

DEVELOPER

SUMMARY

I'm a Motivated and adaptable Full-Stack Web Developer with 4+ years of experience developing and maintaining functional web applications. Specialized in PHP (Laravel) and JavaScript (React, jQuery), with expertise in database design, secure authentication systems, and API integration. Strong focus on scalable code, and modern development tools like Git, Docker, and MVC architecture.

EXPERIENCE

FREELANCE DEVELOPER

Freelance

2020 - 2021

- Delivered custom web solutions using PHP, Laravel, and WordPress.
- Improved UI responsiveness and performance for multiple client sites.
- Migrated legacy websites to modern PHP MVC structures.
- Consulted on UX design, hosting, and WordPress plugin customization.

DEVELOPER

Baseline Digital

2022 - 2024

- Engineered and maintained scalable web applications using Laravel, PHP, and JavaScript, serving over 10,000 active users across multiple client platforms.
- Designed secure user authentication systems, including email verification, password reset workflows, and session management – reducing login issues by 40%.
- Integrated RESTful APIs and third-party services to enable real-time content delivery and seamless data exchange between systems.
- Optimized performance by refactoring complex Eloquent queries and restructuring database indexes, leading to a 30% improvement in page load times.

Jacob Mohumutsi: Web Developer, Baseline Digital

Phone: (081) 3362450 | Email: jacob@baselinedigital.co.za

- Developed and maintained MySQL and SQL Server databases, ensuring data integrity, normalization, and efficient indexing for large-scale systems.
- Developed and extended WordPress-based e-commerce solutions, including custom plugins and admin panels, contributing to a 15% boost in client conversion rates.
- Ensured GDPR-compliant data handling and implemented secure coding practices across all projects, minimizing security vulnerabilities and maintaining audit-readiness.

FREELANCE DEVELOPER

Freelance

2025 - Present

- Designed and developed custom web applications for clients using Laravel, React, and MySQL, focusing on clean architecture and responsiveness.
- Delivered secure and scalable solutions with built-in user authentication, email verification, and data validation systems.
- Built dynamic components and dashboards using React, Bootstrap, and AJAX, allowing real-time interactivity and improved usability.
- Structured and optimized RESTful APIs for seamless third-party integrations, including payment gateways, CRMs, and analytics tools.
- Designed and normalized MySQL/PostgreSQL databases, ensuring high performance and data consistency across applications.

KEY PROJECTS

EBS (Enterprise Business Solution)

- Built a Laravel-based web app to manage complex business workflows.
- Designed MySQL schemas and implemented PDF-to-web document conversions.

Medshield (Health-Focused Web Application)

- Developed secure login and data management using Spring MVC and PHP.
- Designed an admin dashboard with jQuery and Bootstrap for streamlined control.

My Health 360 (Social Media Platform)

- Built user profile management and secure authentication features.
- Implemented survey data conversion and responsive web design.

EDUCATION

2014 - 2016

**VARSITY COLLEGE,
JOHANNESBURG, GAUTENG**
Diploma in Software Development

2016 - 2019

**VARSITY COLLEGE,
JOHANNESBURG, GAUTENG**
Bachelor of Computer and
Information Sciences in Application
Development.

2022

**FREE CODE CAMP,
JOHANNESBURG, GAUTENG**
Certificate: Backend Development and
APIs

Metropolitan Health (Social Media Application)

- I was involved in a 3 person development team that created this interactive PHP social media platform.
- Developed backend features such as user authentication and verification.
- Developed user survey's for data collection.

Silapha (Support Services Web Application)

- Delivered front-end and back-end PHP/JS features with a focus on data privacy.

VKN (Custom Insurance Calculator)

- Developed an insurance calculator integrated into a WordPress template.
- Built secure admin panel and dynamic form calculations using PHP MVC.
